Long Life Formula®

to live longer and better

Lucia Magnani together with her researchers developed **Long Life Formula®**, a **scientific method** with the purpose of enhancing life quality and expectancy, through early identification and correction of risk factors.

Studying **oxidative stress** it's possible, with a targeted nutrition and integration, to activate a cellular reductive oxide rebalancing, warranty of the cell's health and an efficient immune system.

Long Life Formula® embeds GVM Care & Research's professionalism in the medical field, with the thermal and wellness characteristics of Castrocara Terme.

The Long Life Formula® programmes

The common elements are the extremely high-level medical check up, the attention for nutrition, posture's education, specific physical activity scheduling, choosing the best thermal and beauty treatments.
